

UBS

TIME ATTENDANCE SYSTEM

Makes Recording Attendance Simple

UBS Time Attendance System is designed for management to keep track of employees' daily/ monthly attendance, employees' working hours, and computation of overtime, shift allowances, leave management and others. It has been designed for data capturing either from external sources like Finger-Print Reader, Magnetic Card Reader, Barcode Reader or direct from the Terminal Simulator. A further advantage is that it is designed to relieve the tedious recording tasks, and reduce manual calculations leading to increase in efficiency in payroll computation.

UBS Time Attendance System comprises of Punctuality Report, Daily/Monthly Attendance Report, Abnormal Attendance Report, Shift Report, Overtime Report and others.

The system is suitable for all types of businesses. It is user-friendly with user definable overtime and allowance computations and it also provides exception reports.

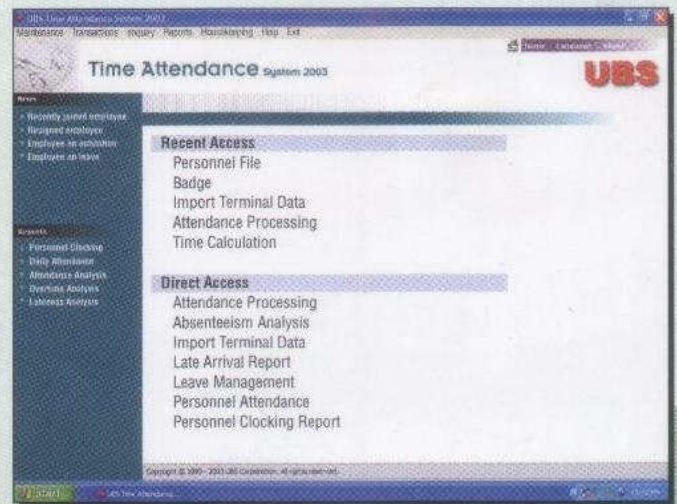

All information can be linked up and updated to **UBS Payroll** system for payroll processing and production of payroll reports.

FEATURES
